Thank you for your ongoing work in the delivery of the Adult Developmental Activities, Programs and Training (ADAPT) Program. This program continues to be a valuable asset to the participants as well as our communities throughout New Brunswick.

Social Development is committed to continually enhancing services as new practices and information is shared. As part of these efforts, a working group has been formed to review the current ADAPT Program Standards. It is anticipated that this working group will present recommendations to modernize the current ADAPT program. The focus of the working group is to build on collaborative, person-centered and employment first philosophies and practices to support individuals with a disability to have full engagement in their communities.

Your input into this process is welcomed and appreciated. You may share your ideas and feedback through the working group representatives from New Brunswick Association for Support Services and Education (NBASSE):

There will also be an opportunity for sharing ideas during the NBASSE Annual General Meeting scheduled to be held May 15, 2018 at the Fredericton Inn, Fredericton, NB.

I look forward to working together to enhance services offered by the ADAPT Program in New Brunswick.

Kind Regards,
